**-TRAINING WEBINARS**

# What is an international project?

# International project

**An international project  
is a project with the  
purpose of making the  
world better**

Question of project:  
**How does this project  
improve the quality of life  
on the planet?**

Projects have provided by  
**[https://iearn.pl.powerscho  
ol.com/](https://iearn.pl.powerschool.com/) site.**

# Our project

## My Hero

- we have to choose a hero our selves and research about her to present the world her and talk about the feeling we have about her and the reasons. The final result has to be a story, short film, art or audios.

## قهرمان من

- در ابتدا ما باید یک قهرمان برای خودمان انتخاب می کردیم، و درباره آن تحقیق کنیم و درباره حسمان و دلایل انتخاب آن شخص صحبت کنیم و پروژه ارائه دهیم. کار نهایی می تواند داستان، فیلم کوتاه، هنر یا پادکست و موزیک باشد.

# Our hero

***We chose Mrs. Maryam  
Mirzakhani as our hero***

***/Mathematician***

# Final Resultes

**Story**

**Interveiw**

and all the world knows her now.

If i said , she's the only woman that has ever gotten Fields award i bet you'll remember her.

“Maryam Mirzakhani”

She is one of the most impressive women in my life. She started her education from Tehran-Farzanegan school, part of the “NODET”. She won many prizes when she was in high school. including two of the most important contests of mathematics, Gold Medal of the international mathematical olympiad for two following years. She was the first irainian student who achieved total score. She continued her education in Sharif-University then she applied for Harvard-University.

As i said she's the first ever woman who got a Fields award. That's not just an honor for my country, that's an honor for all women around the world.

She was a hard working student, a fantastic Mathematician and a beautiful and kind mother.

When I think about her a kind of hope and energy embraces me. There are so many times that we feel like we don't want to continue and we're so tired exactly at this whole time. We are just 15 years old girls who are trying hard for their future and they want to be an honor for their families, but being a teenager in this world that we can not choose a lot of things that they are related to us, and emotional pressure from people around us make us feel like we are alone. When we notice someone like mrs.Mirzakhani that she has never given up in her life, and she has reached her dreams, we feel like we are not alone and we can do it like she did. A lot of students are like: **we don't like maths, it's hard and it's useless**, but Mrs.Mirzakhani has opened a door of hope for us. That we can fall in love with maths and do it for a whole life and we can never get tired of it.

Trying is a key to success. Trying for what we want, what we love, for ourselves, someone who fights for herself is a worthy person and I respect her in many ways. I hope someday we all try for any small thing that we want and deserve. Nothing is impossible with trying.

I don't know if it's a sign of the times or not, but the world takes the people we love sooner than others. You know, when we walk in a garden, we pick up more beautiful flowers sooner. I kinda think the world has some feelings like us.

She's gone on 14th july of 2017 when she was 40 . We still miss her. I don't

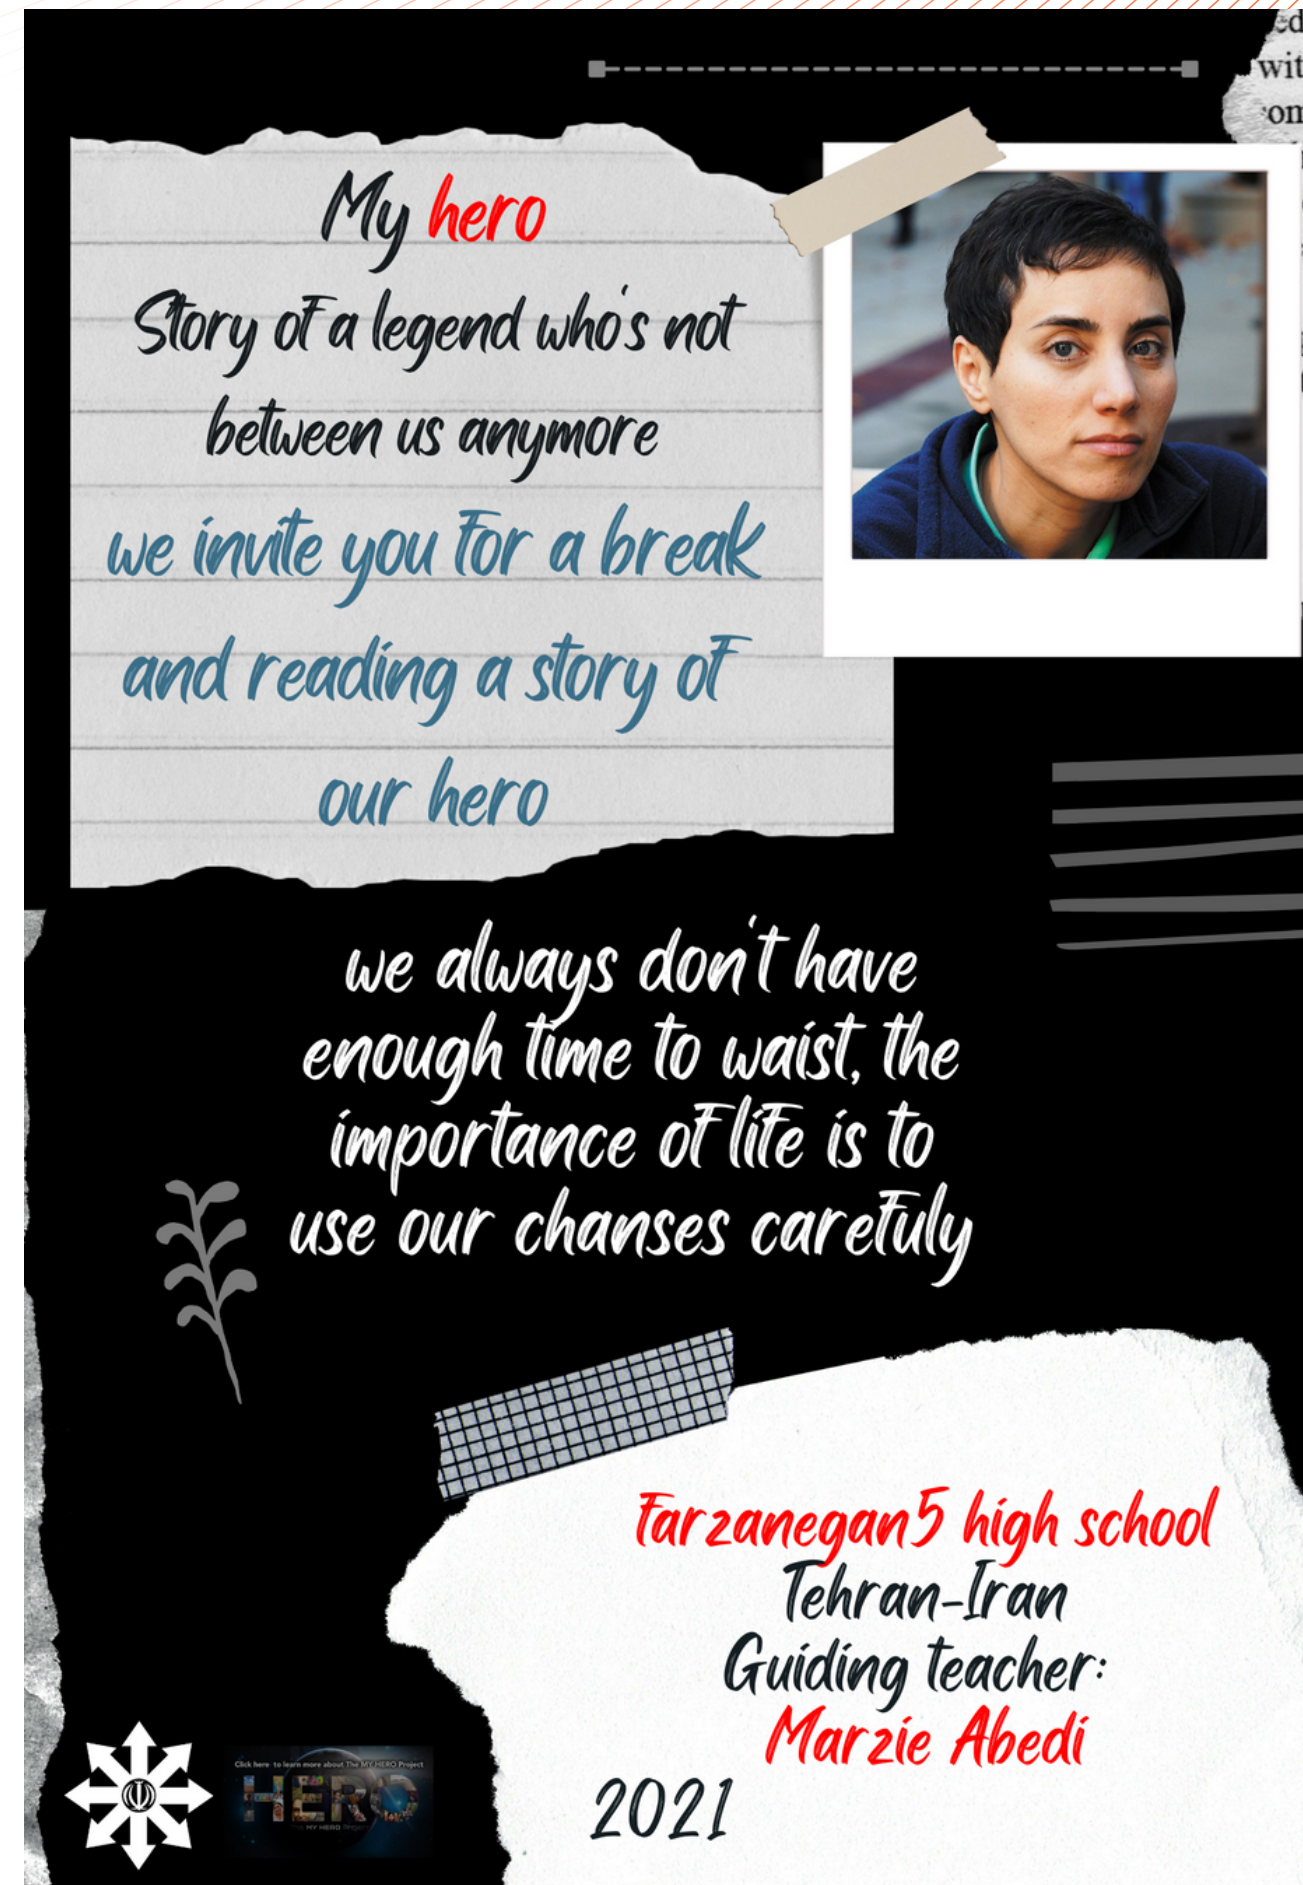

# Story

We wrote a story about her, the story of our feeling, the way we love her and appreciate her that she's a honor of Iran. We're happy we're an Iranian too like her.

# Poster

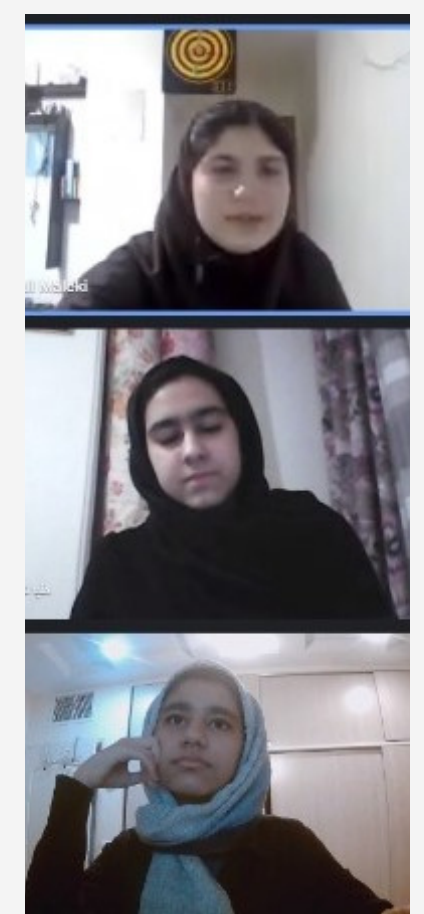

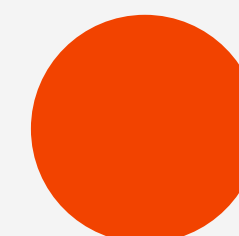

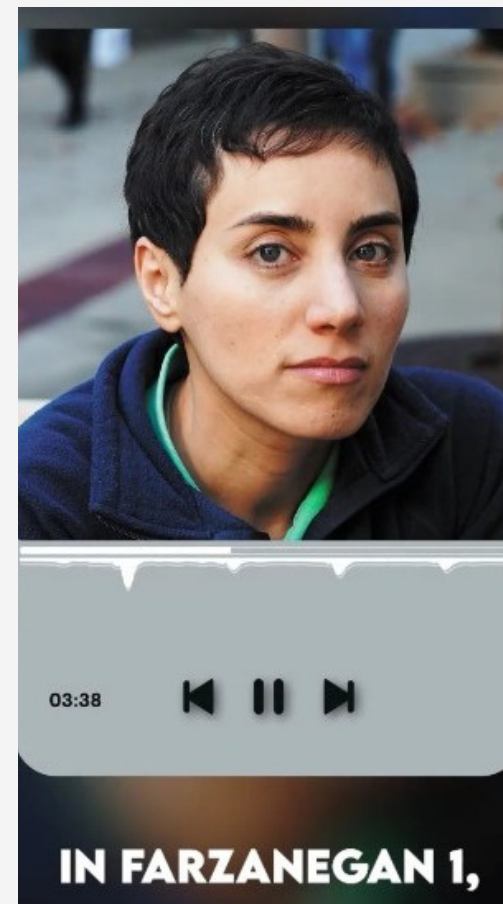

# Interveiw

**We got an interview  
from teachers and  
students and asked  
them some questions  
about Maryam  
Mirzakhani to  
evaluate their  
knowledge about her.**

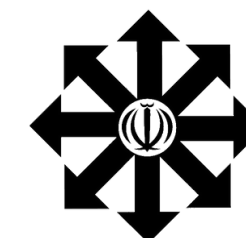

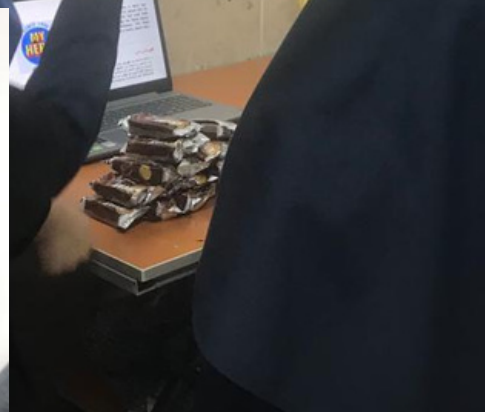

# PowerSchool

besides of final work we have worked with power school site and stayed connected with them so that we could contact with other facilitators and participate in other international projects.

به علاوه کار پایانی ما با سایت power school کار کردیم و با آن ها در ارتباط ماندیم و با گروه های دیگر ارتباط برقرار کردیم و می توانیم در پروژه های بین المللی دیگر هم شرکت کنیم.

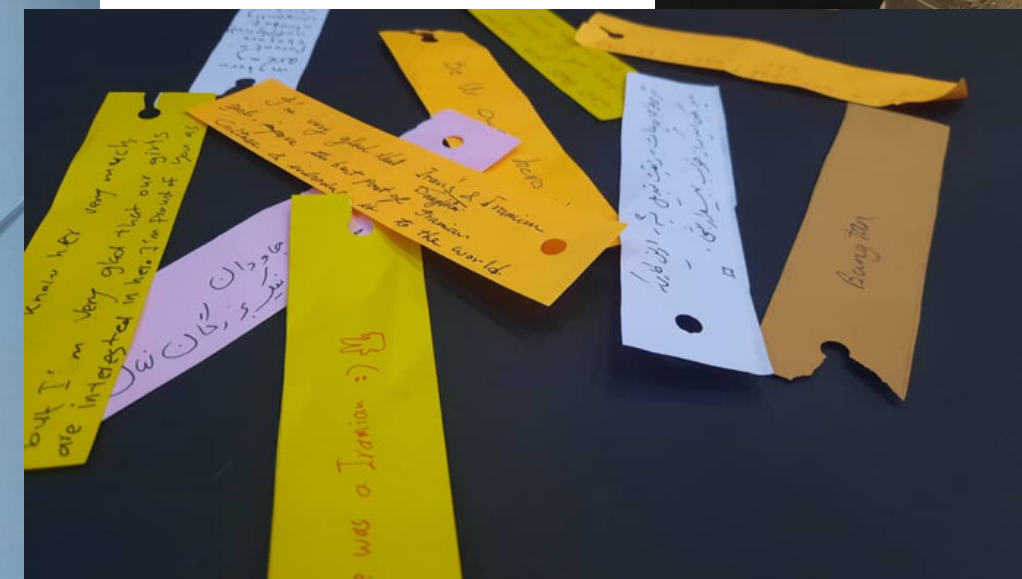

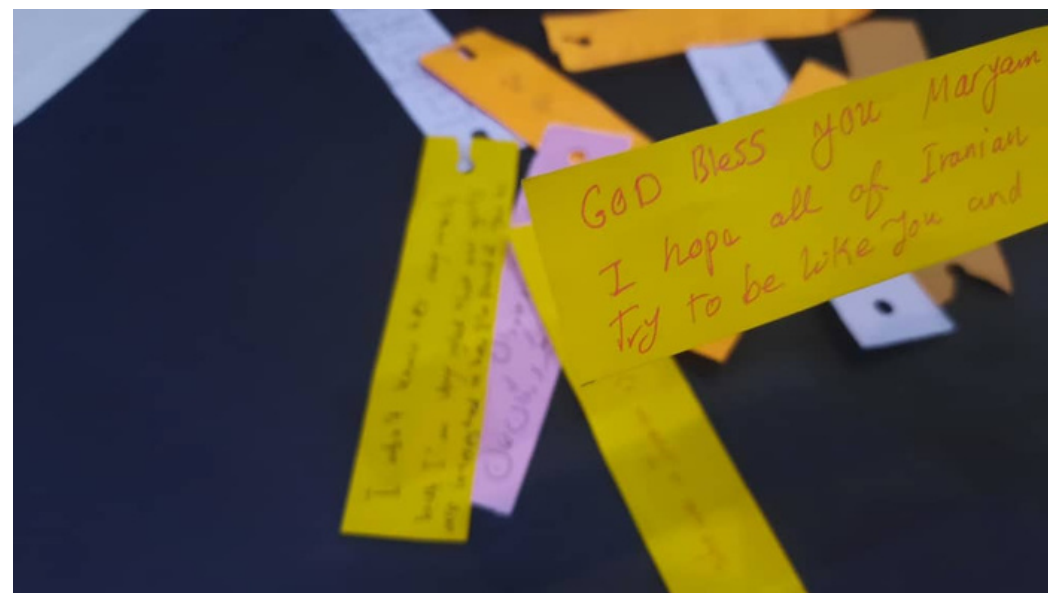

# Our presentation in school

# Practical word

# Thanks for watching
